

## Christmas 2022

Dear Family and Friends,

You are all in our thoughts and prayers this holiday season. We love getting your letters and hearing about your lives this past year. Here is an update on ours.

Jance and Autumn, and their family are all doing great. All five grand-kids are growing and experiencing life ... McKenna (25) married her sweetheart Sammi in Caspar, CA by the Ocean. Caden (23) is at BYU Idaho working towards a business degree. Josh (20) is continuing his career in entertainment and has done several plays this year ... West Side Story, Romeo and Juliet, The Addams Family, and Mary Poppins. Conner (18) is at Cosumnes River College for his Associate degree, and then will transfer to CSU Long Beach, CA. Hunter (16) played his Tuba in the Disneyland Christmas Parade this year. And Oscar, their little dog, adds a great deal of love to their family.

Grant and Sarah are busy with work and keeping up with their two boys, Lex (15) and Ian (12), who have both gotten quite a bit taller, and are still enjoying on-line school. Their family is in the middle of planning a big move. They would like to live abroad for a while and are currently looking for the best fit.

Brad still enjoys hiking and disc golf, and Jess has completed her Masters degree. Both are working full-time and raising Luke (14), who is in High School already and still loves to read, and Miles (11) who is very active, and enjoys soccer and video games. Their dog, Koda, who is such a good, smart, and well trained dog keeps them active.

We are so grateful that our sons and daughters-in-law are such great parents. We can't praise them enough for all the love, hard work, and thought they put into raising their children.

John is still working, golfing, and cheering on his favorite sports teams. He has been able to attend several Steelers games, and continues to remain hopeful about the season. Although he has been heard to mutter, 'The Steelers stink!'. But Weber State is having a great football year, and basketball is just starting.

Linda's health has returned and is able to do all the things again that she loves! Spending time with family and loved ones, quilting, and currently trying her hand at helping an Amaryllis bloom. This is a tradition of Linda's Mother, and all eight of her children are carrying it on.

We send our love and very best wishes to each one of you this holiday season. Like we always say ... we are VERY fortunate, and the Christmas season is a great time to express gratitude for our wonderful families and friends. We love you and we'd like to hear from all of you!

**Merry Christmas and Happy New Year to all!**
